

#### A NEW VISION FOR DIVERSITY, EQUALITY & INCLUSION AT BRITISH LAND

British Land is an organisation where people feel free to bring their whole selves to work. It defines our culture and who we are.

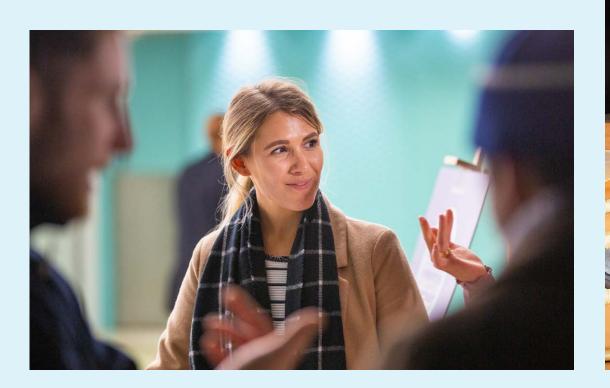

The future of our business depends on our people and we have a responsibility to connect with them and invest to create a truly diverse, equal and inclusive culture where everyone is welcome, and which celebrates different experiences and perspectives.

For this reason, helping more people from diverse backgrounds into our industry is my ambition.

We want to be a champion for equal rights and opportunities for everyone at British Land, in the communities we serve and beyond. We already support a range of initiatives to nurture diversity across our sector but we will continually strive to do more.

# Our 2030 Diversity, Equality & Inclusion Strategy

Our strategy is designed to make a positive difference to colleagues, communities and our wider industry by taking action to promote equality – considering all areas of diversity – and working in close collaboration with our networks.

By 2030 we are committed to improving the diversity, equality & inclusivity (DE&I) of our business, ensuring that we reflect and understand the people who work, shop, live and spend time at our places.

This means taking action in relation to the nine protected characteristics: gender, gender reassignment, age, race, sexual orientation, religion or belief, disability, marriage and civil partnership, and pregnancy and maternity. Through our approach, we're helping to address some of society's biggest concerns.

Creating an equal and inclusive culture with a diverse workforce must be a fundamental part of any successful business.

And for us, it underpins our core company values: Bring Your Whole Self, Listen and Understand, Be Smarter Together and Build For The Future.

Our strategy is aligned to the United Nation's sustainable development goals – a framework

to tackle social and environmental challenges. Specifically, our goals align to progressing Gender equality, Decent work and Economic growth, and Reducing inequalities.

Creating a diverse, equal and inclusive culture is a key part of our ambition to be a Responsible Business. It is the "S" in our Environmental, Social and Governance strategy set out in our 2030 Sustainability Vision.

Our 2030 strategy supports multiple UN Sustainable Development Goals:

"I'm determined that what we do is a movement and not a moment. A 'moment' describes those who say the right things at the time but if you go back to them six months later and ask what they've done, there's been no real action. A 'movement' describes those who quietly move that dial, commit to doing specific things and then do them well. And they publish a record of what they've done. This strategy is designed with exactly that ethos in mind, and I look forward to continuing to keep our colleagues, customers and communities updated with our progress."

"Until working at British Land I never really found it appropriate to be open about my condition – ulcerative colitis – and that I have an ileostomy bag. I was instantly put at ease that not only did my colleagues want to hear my experience of a hidden illness, but also learn how we can make our workplace more comfortable for others in a similar situation".

It's all the more impressive therefore that British Land has created an environment where individuals can be their whole selves, and it's no coincidence that this is the first organisation where some colleagues have felt comfortable enough to "come out" in their professional lives."
